

Lessons / Activities for Tuesday 26th June 2007

Literacy:

Continue with balanced reporting of "Adam and Paradise Island" - with a view to producing a script, then filming using Digital Blue Cameras

Numeracy:

Word problems - see following sheet.

Art:

Adam and Paradise Island collages

RE:

The Here I Am folder is under the desk if you have time.

WORD PROBLEMS - Tuesday 26th June

Think carefully about these word problems. They all involve dividing, splitting or sharing.

Read the questions carefully - copy them into your books and then work out your answers.

1. I have 20 pairs of shoes. I can fit 5 pairs on each shelf. How many shelves will I fill?
2. My mum bought 27 Easter eggs. She shared them between 3 children. How many did we get each?
3. There are 36 children on a school trip. They are split into 4 groups. How many in each group?
4. I got 40 plates out of the cupboard. I can fit 8 plates on each table. How many tables can I set?
5. The cook defrosts 16 fish fingers. She gives each person 4. How many people can have fish fingers?
6. My Nan made 54 cakes. She can fit 6 in each tin. How many tins can she fill?
7. There are 24 tyres in a garage. How many cars can have 4 new tyres?
8. I bought 63 bubble-gums. If there are 7 people, how many can we have each?
9. There are 36 sheep in a field. They walk round in groups of 6. How many groups are there?
10. There are 18 children in a group. If they split into pairs, how many groups would there be?

Matthew						
* Combining Text and Graphics					X	
* Email					X	
* Exploring Simulations					X	
* Database				X		
* Manipulating Sound				X		
Effort: Very Good	Progress: Very Good					
Can find and present stored information quickly and confidently. Is able to use the computer confidently to record and present ideas. Plays an active role when working on the computer.
